

School Accountability Report Card

Reported Using Data from the 2019–2020 School Year

California Department of Education

Mountain Valley School, Nevada City

24077 State Highway 49
Nevada City, CA 95975

(530) 265-9057

Principal: Ruth Zilch

Grade Span: 5th - Adult

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF webpage at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollment, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Career Technical Education Programs (School Year 2019–2020)

Mountain Valley School, Nevada City offers a variety of Career Technical Educational opportunities. We are fortunate to have access to a beautiful setting in Nevada City. It is a perfect place to learn about agriculture in a natural environment. Nevada City has animal facilities and pastures which house domestic animals.

The program is designed to address individual student's career choices and interests. Students take semester courses in Career Exploration and Technology Exploration which are aligned to the California Career Technical Standards (CTE). Middle and high school students take part in studies of agriculture, horsemanship, woodwork, pottery and animal care.

At MVS, Nevada City, Career Technical Education incorporates the concepts and skills which students learn in core classes. Lessons integrate reading, writing, mathematics and research skills to complete hands-on projects. Units are often coordinated to focus on the application of basic skills. Some examples of student work are: journal reflections on learning styles, the collecting of data on natural phenomena, the creation of manuals for equine and other animal's care, and the creation a power point presentation to culminate research projects.

Students readily engage in the CTE courses. They are motivated to care for the animals building their knowledge and overall self-confidence. Teachers often comment that a previously apathetic student has enjoyed CTE and is then eager to work on their academic and social-emotional goals. Many students also find life-long interests in nature, gardening and animal care as a result of their experiences in our CTE courses.
